

Who are we

TEFCOLD is a family-owned company with headquarters in Viborg, Denmark. Cooling is our passion and we have more than 35 years of experience distributing commercial cooling equipment. Today we are one of the market leaders within the plug-in refrigeration industry. With the help of professional distributors and business partners, we export to customers in more than 100 countries worldwide. Our goal is to help customers keep temperatures down and sales up.

WHY CHOOSE US

Always a solution in stock for you As you can see in this catalogue, we offer a wide range of coolers and freezers, and we always have more than 70.000 units in stock.

Global delivery

Save money – use our warehouse

COMMERIAL COOLING WHEN IT SUITS YOU

Making life easier for our customers is important to us and we therefore focus a lot of energy on developing useful IT tools that can help with this. On this page you can see an overview of some of the solutions we have come up with – which you get access to with a web login.

Benefits of being a TEFCOLD customer with a web shop login:

- Buy 24/7 at your convenience, in your local language
- Always with your agreed prices and potential warranty agreements
- Possibility to buy on credit
- See your transport costs immediately based on calculated loading meters
- Real time stock info

- Date of arrival if a product is sold out
- Customer center with status on orders and invoices as well as tracking codes
- Access to additional documents like product drawings, electrical diagrams, energy labels etc.
- MediaBank with all product images ready for download
- Live XML feed so you can integrate our products to your web shop
- PDF offer function use our web shop to make offers for your customers
- Comparison function compare different products to make an informed decision
- Create favorite lists for e.g. different product groups, projects, customers

DISPLAY COOLERS

Tabletop Coolers - Bottle Coolers - Display Coolers

Our small TEFCOLD display coolers are perfect on counter tops in caf s and restaurants. They are eye-catching and stimulate impulse sales if placed close to the payment point.

Display coolers are designed for shops, supermarkets, caf s, restaurants, gas stations etc. Often referred to as 'bottle coolers', they keep beverages cold whilst presenting and pro-

moting the products to their best advantage. Shelves, lighting and glass are all designed to enhance sales.

They come in a wide range of variants and sizes with and without canopies. All models can be decorated on the sides and glass doors, and on the canopy for models with this feature.

TEFCOLD CEV425CP BLACK

Display cooler with fan assisted cooling and LED light in canopy and interior. To cool your beverages fast.

CAN COOLERS

Can Impulse Coolers

Mobile can coolers are perfect for stimulating impulse sales and for cold beverages, for example in connection with parties and events when mobility and flexibility are key.

They are ideal for branding and can be placed strategically many different places in a shop, or maybe close to a buffet.

Can coolers are extremely mobile and easy to handle. They are fitted with wheels or slides.

Every model has fan assisted or ventilated cooling, which ensures faster, stable cooling of the contents compared to static cooling. This is particularly important for stimulating impulse sales

TEECOLD CC45

Display can cooler with fan assisted cooling. A perfect and mobile solution for impulse sales.

Internal fan and basket

Strong castors

CC45

Can Cooler

- · Fan assisted cooling
- Designed for canned drinks
- Fast pull-down of temperature
- Includes basket
- Flip-flop lid
- Well suited for branding
- Strong castors

Description

The CC range of can coolers is perfect for stimulating impulse sales. They are available in several sizes, in black or white. The can coolers are compact and easy to move around on strong castors. They have fan assisted cooling for a fast pull-down time and are delivered with a basket. Release their full potential by applying branding to attract the eyes of thirsty or hungry customers, depending on what you have to offer. Also available in a freezer option.

CAN COOLERS I 53

BACKBARS

Backbars - KEG Coolers - Undercounters

TEFCOLD backbars are ideal for use under the counter in bars, caf s and restaurants. They can be fully built in, as the air intake and exhaust are both at the front.

All our backbars are designed for rapid product cooling, to ensure cold beverages are always available. And we thought about every detail for the personnel using them the thermostat is placed on the outside of the units for easy

access, and the door handle is at the top, avoiding having to bend down too far to open and close the door.

The premium backbar range (BA) features aluminium doors and chrome shelves with closely-spaced wires, to give stability and high capacity. The standard range (DB) has white plastic-coated wire shelves for easy maintenance. If enhanced cooling capacity is needed, we offer a 'heavy duty' range (CB).

TEECOLD DR201S

Energy-friendly backbar with sliding glass doors and rapid product cooling. When easy access and product replenishment is key.

Protective thermostat cover

Door holder for loading of the cabinet

Description

The DB range of backbars comes with 1, 2, or 3 doors with double glazed tempered glass. Choose between sliding doors or hinged doors. The backbar cooler has a black exterior, a stucco aluminium interior, and white plastic-coated wire shelves for easy maintenance. It has ventilated cooling, easily controlled by an electronic thermostat. Ideal for busy bar environments.

The new range of backbars is highly energy efficient and uses in average 56 less energy compared to the previous models from the same range.

BACKBARS

coolers BA Backbars

New Product

DID YOU KNOW?

Our backbars are offered with both 87 and 90 cm height and with sliding or hinged doors – all with double glazed glass doors.

BA26H

Backbar Cooler

- EU Energy Class A
- Approx. 59 more energy efficient than previous BA-range
- Ventilated cooling for fast pull-down and even temperature
- Energy saving variable speed compressor
- Double glazed tempered glass
- · Hinged alu-framed glass doors
- Easy access electronic thermostat
- Adjustable shelves behind each door
- LED interior light
- Lock

Electronic thermostat

Description

The BA is a range of high-quality backbars. It features aluminium doors and chrome shelves with closely-spaced wires, to give stability and high capacity. Double glazed glass doors offer great product visibility as well as a lower energy consumption. It is available with 1, 2, and 3 doors choose between hinged or sliding doors. To ensure that the backbar fits into any bar environment, it comes in two heights 870 mm and 900 mm.

The new range of backbars is highly energy efficient and uses in average 59 less energy compared to the previous models from the same range.

CKC8 KEG Cooler

- Self-closing doors
- Stainless steel interior
- Adjustable feet
- Ventilated cooling
- Suitable for 20 I KEGs

Easy access to clean condenser

Description

The CKC range of KEG coolers comes in several sizes, fitting between 2-8 x 20 liter KEGS. It has a black exterior and a stainless steel interior. It has ventilated cooling to ensure a fast pull-down time and the temperature can easily be adjusted on the electronic thermostat. A great choice for busy bar environments serving draft beer.

WINE COOLERS

Wine Coolers - Wine Dispensers

TEFCOLD supplies a wide range of wine coolers and dispensers for elegant storage, presentation and serving - for example in restaurants.

The TFW range features elegant and practical design. It has a modern and eco-friendly cooling system that reduces the heat, noise, and energy consumption of the cabinets.

Choose between different sizes, door types, and cabinets with a single temperature zone or with two zones. Common to all models is that wooden shelves are included, designed to hold the maximum number of Bordeaux bottles on as many shelves as possible.

Elegant and frameless wine cooler for all types of wine. Great design combined with an energy efficient cooling system.

Description

Our wine cooler range

also offers cabinets with two temperature zones for storing different types of wine at the same time.

The TFW-F range of frameless wine display coolers offers an elegant solution to storing and displaying wine. It has a contemporary design with an edge-to-edge glass door, soft LED lighting, and slide out wooden shelves. The wine cooler also features a modern cooling system that reduces the heat, noise, and energy consumption of the cabinet.

WINE COOLERS I 75

MINIBARS

Minibar Coolers - Absorbtion Coolers - Compressor Coolers

TEFCOLD minibars are ideal for hotels and conferences. They can be fully integrated and come with solid or glass doors in a range of sizes as well as in a drawer model. All models feature key locks and internal LED lights.

The models with a frameless glass door offer an elegant display of the snacks and drinks inside. The minibars with a solid door can be built into a cabinet and thus blend seamlessly into the design of the furniture.

All our absorption minibars use a single heating element and three fluids to drive the cooling

system, making them extremely reliable. The cooling system operates silently (0 dB(A)), is maintenance-free, and has a long service life.

Our compressor operated minibars can secure a low temperature level even in warmer climates, and they have smart programming with a timing function, a SLEEP-mode function, and a FAST-cool function. Not to mention an extremely low energy consumption.

TEFCOLD TM44G

Silent minibar with absorption cooling and reversible glass door. When even a small product selection should to be elegantly presented.

MINIBARS I 77

COOLERS

Absorption Glass Door Minibars

DID YOU KNOW?

An absorption minibar uses a single heating element and three operating fluids to power the cooling system. This is highly reliable, silent and energy efficient.

STORAGE COOLERS

Storage Coolers - Upright Coolers

The TEFCOLD upright storage cooler range goes from undercounter models to full-height refrigerators. They come in stainless steel or white-painted finishes. We have storage coolers in a wide range of sizes and for any requirement.

All our storage coolers are made for the busy catering environment and are therefore designed with durability and hygiene in mind.

The UR model is often used with the UF freezer option. The UR and UF models look great together, regardless of size or finish. UR models feature electronic thermostat.

The SD and SDU models are a little narrower, with a mechanical thermostat. They use a little more electricity than the UR models, but are a less-expensive alternative in terms of purchasing price.

TEFCOLD UR400S

Storage cooler with reversible solid door and stainless steel cabinet. Solid and elegant backroom storage for any business.

UR-S/UR Storage Coolers

Freezer Option

Suitable for Dairy Products

Stainless Steel UR Storage Coolers

- Stainless steel cabinet
- Integrated handle
- Reversible solid door
- Electronic thermostat
- Fan assisted cooling
- Adjustable shelves GN2/1
- Lock
- · Digital controller and temperature display
- · Adjustable feet with rollers to rear

UR: Storage Coolers

UF: Matching Storage Freezers p. 152-153

UR-S: Stainless Steel Storage Coolers

UF-S: Matching Storage Freezers p. 154-155

Description

The UR-S range of storage coolers is the stainless steel version of our UR cabinets. They offer high quality and reliability, wrapped in a clean design. It has fan assisted cooling to ensure a stabile temperature throughout the cabinet, which is easily controlled by an electronic thermostat. It comes in various sizes with adjustable shelves, making it easy to customize the interior to fit your needs.

DISPLAY COUNTERS

Refrigerated Display Counters - Tabletop Display Counters

TEFCOLD refrigerated display counters are fantastic for storing and displaying food products in delis, bakeries, gas stations, corner shops or caf s.

The LPD and LCT ranges are high-quality products, designed to optimise running costs and provide the perfect display.

The LPD range is a top-class counter with key features such as double-glazed glass, anti-mist front, LED lights under every shelf and white glass shelves. They are all available with curved or flat glass fronts.

LCT is a range of small countertop models, similar to the LPD range. However, they have chromed wire shelves and stainless steel finish.

UPD is a range of vertical refrigerated displays, also available in tall floor and countertop versions. They have the same features as the LPD and LCT models, but in a different, vertical design.

The NDC models in premium design are the newest addition to our display counters. Combine with an ambient corner section to join two cabinets or create stunning island displays.

TEFCOLD LPD1200C/BLACK

Display counter in premium design with ventilated cooling. The sliding doors give easy access to the great displayed content.

WASTE BIN COOLERS

Waste Bin Coolers

TEFCOLDs waste bin coolers offer a hygienic solution for waste disposal in professional kitchens, supermarkets, or at businesses such as veterinarians.

The waste is kept at temperatures suitable for fresh produce, which reduces the degradation of organic waste.

The coolers are made from stainless steel for easy cleaning and maintenance, as well as for high durability. They have a top lid for easy waste disposal and a ramp, making it easy to take the waste bin in and out when emptying it.

Our waste bin coolers are suitable for both 120 l and 240 l wheelie bins (not included).

A hygienic solution to waste disposal.

WBC 480

Waste Bin Cooler

- Stainless steel for easy cleaning and maintenance
- Ramp for easy waste bin handling
- Electronic thermostat
- Automatic defrost
- Ventilated cooling

Digital controller

Description

The WBC range of waste bin coolers is suitable for both 120 I and 240 I bins (not included). It is available in sizes for 1 or 2 bins. The waste is kept at temperatures fit for fresh produce and thus reduces the degradation of organic waste. It comes complete with a top lid for easy disposal and a ramp for easy handling of the waste bin. A hygienic solution for businesses such as supermarkets, professional kitchens and veterinarians.

DID YOU KNOW?

We do not compromise with the quality of our products, but aim to deliver products, which function under the toughest conditions.

ICE CREAM FREEZERS

Scoop Ice Cream Freezers - Ice Cream Freezers

TEFCOLD ice cream freezers come in a wide range of sizes and designs. They can be divided into two categories scoop ice cream freezers and ice cream freezers with glass lids.

Our scoop ice cream freezers range from competitively-priced models to more exclusive models in premium design. They are all designed to optimize not only presentation, but handling and access to the ice cream or gelato.

The ice cream freezers with lids are great for displaying ice cream tubs and popsicles. Choose between designs with flat or curved sliding lids. All have castors for increased mobility.

All models (scoop ice cream freezers and regular display ice cream freezers) are ideal for branding.

TEECOLD MILLENNILIM ST24

Premium scoop ice cream freezer with a modern and elegant look. With glass sneeze guard the ice cream is under optimized hygienic conditions.

UDRS Scoop Ice Cream Freezers

Layout based on baskets with 5L plastic tubs

UDRS9

Scoop Ice Cream Freezer

- Open ice cream freezer for scoop ice
- Sneeze guard in curved glass
- Suitable for Napoli Pans (not included)
- Lift up rear lid (2 can serve)
- Easy access storage compartment
- Automatic defrost
- Optional Rear shelf with scoop wash
- · LED interior light

Suitable for Napoli Pans (accessory)

Easy access storage compartment

Description

The UDRS range of scoop ice cream freezers is a part of TEFCOLDs premium freezer program. It offers high quality and an elegant design with a lower front, which ensures great visibility of the ice cream. The freezer has lift up rear lid, which help insulate and save energy, when you are not serving ice cream over the angled glass guard. It is of course suitable for Napoli pans (not included).

NIC-SCEB Ice Cream Freezers

NIC501SCEB

Ice Cream Freezer

- · Curved sliding lids with lock
- Includes full set of baskets
- Ideal for branding
- Digital thermometer
- Castors with brake
- Climate class 5 for high performance in warm surroundings

Illuminated display board as option (accessory)

Description

The NIC-SCEB premium range of ice cream freezers has a great design with curved corners, rounded edges, and curved sliding glass lids. It is a very stable and solid build, but at the same time on wheels so that it is easy to change location in the store. The freezer is great for displaying frozen food including ice cream and lollies. It comes with a full set of baskets.

STORAGE FREEZERS

Horizontal Freezers - Upright Storage Freezers

TEFCOLD storage freezers are perfect when plenty of freezer capacity is needed for backroom storage. The storage freezer range goes from horizontal freezers to upright undercounter models and full-height freezers.

The upright UF models with solid door are often used next to the UR cooler range. The UF and UR models look great together, regardless of size or finish. They come in stainless steel or white paint finishes.

In terms of horizontal freezers, the FR and CF models are the most competitively-priced when extra freezer capacity is needed.

If you need a low-temperature freezer, e.g. for storing fish or to use in a laboratory, please go to our medical freezers and see the SE models, which can go down to -45°C.

TEFCOLD UF400VS

Storage freezer with ventilated cooling, reversible solid door, and stainless steel cabinet. Solid and elegant backroom freezer storage for any business.

FREEZERS Upright Freezers

Strong handle

UFSC371SD

Storage Freezer

- Digital thermometer
- Fixed shelves
- Defrost water drain
- Adjustable feet
- Static cooling

Description

The UFSC-SD range of storage freezers offers great storage space at a competitive price. It has static cooling and fixed freezer shelves with built-in evaporator coils to ensure an even temperature throughout the cabinet. The solid door is reversible and the freezer comes with a digital thermometer.

DID YOU KNOW?

TEFCOLD has a passion for cooling... Because of our wholehearted passion for both cool products and customers, we experience a high level of customer satisfaction.

DISPLAY FREEZERS

Tabletop Freezers - Upright Display Freezers

TEFCOLD display freezers come in a wide range of models and sizes. Glass doors make them perfect for displaying frozen items.

Most models can have a canopy, and are ideal for branding. The smaller display freezers with glass doors are perfect as countertop models. They can stand on the counter for optimum exposure and to stimulate extra sales.

Purpose and size will determine our recommendations for individual customer requirements. But we are always prepared to give advise about which other features will be important to the final choice.

Display freezers are available with static and ventilated cooling, in stainless steel or painted finish, with or without canopy and in various designs.

TEECOLD NESONG

Upright display freezer with illuminated canopy. The glass doors give a great overview of the content inside.

Description

DID YOU KNOW?

as well as in a cooler model.

The UF-VSG range of display freezers is the ventilated version of our stainless steel glass door freezers. It comes in a variety of sizes and offers great flexibility with adjustable shelves. The effective ventilated refrigeration system ensures an even temperature throughout the cabinet. The temperature can be set on an easy-to-use digital thermostat display. Defrost happens automatically.

LED light

Description

The NF range of display freezers comes with 1, 2 or 3 doors and offers impressive storage space. The illuminated canopy grabs the attention of customers, while the self-closing heated glass doors, adjustable shelves, and internal vertical LED lighting ensure that the content looks its best. The freezer has an efficient ventilated cooling system and automatic defrost. Because of the cooling system, it is possible to adjust the shelves to fit the frozen content you wish to display.

DISPLAY FREEZERS I

MULTIDECKS

Open Front Coolers - Multideck Coolers - Multideck Freezers

Our multidecks with full glass doors can help create stunning food and beverage displays. They combine outstanding cooling performance with innovative design features and superior energy efficiency to help solve food and drink display challenges.

In terms of energy efficiency, our multideck coolers are available as A, B, or C rated cabinets. This makes them a more sustainable and low running cost option.

One of the fantastic features of our multideck coolers and freezers is that they can be multiplexed, creating an uninterrupted continuous line. This means that you can customize the length to fit your store and thereby maximize the available space to showcase products.

Another great feature is the extra deep shelves, which provide lots of storage and thereby minimizes the need to restock. The base shelf of the EXTRA range even has room for placing standard vegetable boxes (60 x 40cm) directly on the shelf.

TEECOLD EXTRA2500CD

Supermarket multideck cooler with doors.
Great for multiplexing and creating uninterupted continuous lines.

IMPULSE CABINETS

Island Coolers / Freezers - Impulse Coolers / Freezers

As the name suggests, the impulse coolers and freezers are great for stimulating impulse sales. The open top removes all barriers and provides easy access to the products inside.

The impulse island coolers are often used in supermarkets, gas stations, convenience stores, and cafeterias for e.g berries, fruit, vegetables, sandwiches, or other take away options.

The PDC range offers great product visibility as all sides are glass. It is a flexible cooling solution, as the strong castors

makes it easy to move around to different locations in the store.

The UHD model is ideal for branding on all four sides, making it eye-catching no matter which direction the customer sees it from. It can be switched between cooling and freezing, according to your needs.

TEFCOLD UHD201 /Black

Flexible island cooler/freezer.

Create an eye-catching display with branding on all four sides.

IMPULSE CABINETS I

SUPERMARKET CABINETS

Supermarket Freezers - Supermarket Freezers / Coolers - Wall Units

Temperature, energy efficiency, performance, reliability, and build quality are all important considerations when choosing supermarket cabinets. The aim is to maintain product freshness for as long as possible while showcasing your products in the best light.

TEFCOLD's range of quality supermarket coolers and freezers have been developed specifically for the modern retail environment, to meet the requirements of both supermarket operators and your customers

Our extensive range of plug-in supermarket cabinets offers a wide variety of shapes, sizes, and finishes. Many of them are switchable between cooling and freezing, so you can change the function according to your needs.

As a new addition to our range of supermarket products, we have introduced the MTF wall freezer/cooler. This model is ideal for optimizing store space, as you can take advantage of the height of the room as well as the floorspace. Place it against a wall or create spectacular island displays in combination with the new SFI models.

Low-energy supermarket cooler/freezer.
The curved sliding lids allow full visibility of the products inside.

TWIN 220-CF Range

- Freezer / Cooler
- Occupies less floor space
- Increased reliability
- Low energy consumption
- Save on total expenses (operation plus investment costs)
- Bumper bars
- Static cooling
- Automatic defrost
- 2 cooling systems for redundancy
- Ticket strips as accessory

TWIN supermarket units are available as cooler / freezer models (CF) and as seperate freezer models (F).

Description

The TWIN range of supermarket units features an innovative design, ideal for stores with limited space. One TWIN unit has the same volume as two standard chest freezers/coolers of the same length placed back-to-back. As the TWIN model takes up less floor space, the result is more storage with a smaller footprint. It also has the great function of two cooling systems for redundancy.

DID YOU KNOW?

TWIN supermarket freezers/coolers are available in black, antrachite and white.

Digital controller

Adjustable false base

Description

The SFI-CF range of energy efficient supermarket chest coolers/freezers is available in several sizes and colors, and offers great visibility of the products inside with its curved sliding glass lids. The content is illuminated by LED lighting on the back wall of the freezer. Adjustable false bases between the dividers make it possible to raise the height of the base inside the unit, so it always looks fully stocked. Perfect for supermarkets, grocery shops, butchers etc.

VIEW 250 CF VS

Supermarket Cooler / Freezer

- Great product visibility
- Easily switchable between cooler and freezer
- Energy saving variable speed compressor
- Front to back sliding glass lids for easy access
- Triple glazed insulated glass on all 3 sides
- LED interior light
- Digital controller and temperature display
- Adjustable false base

Strong handle

Adjustable false base

Description

The VIEW 250 CF VS is a versatile supermarket cooler/freezer in a contemporary design. It offers great product visibility with glass walls on three sides of the unit, as well as front-to-back sliding lids on the top. It is easy switchable between cooling and freezing, simply choose the wanted temperature on the digital controller.

MTF Mini

Wall Freezer

- Ideal for optimizing store space
- Heated self-closing glass doors
- LED illuminated canopy
- Great branding possibilities
- Ideal with chest cooler / freezer underneath
- Adjustable shelves
- Ticket strip and acrylic front riser as standard
- LED interior light with switch
- Requires stand building and cabinet lifting onto stand

SUPERMARKET CABINETS I

MEDICAL

Laboratory Freezers - Pharmaceutical Medical Cabinets

TEFCOLD medical range is designed for storing critical materials that demand constant temperature and security. We offer horizontal freezers as well as upright cabinets to accommodate a wide variety of storage needs.

The SE range is a range of low temperature horizontal freezers, operating from -45 to -5 degrees.

They are fitted with an electronic thermostat with an alarm, and are ideal for such purposes as laboratories and optimal freezing of fish.

The MSU units are cooling cabinets with glass doors, fitted with an electronic thermostat with an alarm, fan assisted cooling and a screened condenser to protect medicinal packs.

TEECOLD SE10-45

Specialty freezer for extra low temperatures. Easy access freezer with electronic thermostat and alarm

MEDICAL I 207

Medical Cabinets

Thermostat with audible and external alarm

Evaporator cover preventing damaged medicine

MSU400

Medical Cooler

- · Hinged glass door
- Electronic thermostat
- Audible alarm signal
- External alarm connection
- Adjustable shelves
- Automatic defrost
- Adjustable feet
- · Fan assisted cooling
- LED interior light

Description

The MSU range of medical coolers features an electronic thermostat with an audible alarm signal as well as an external alarm connection for added security. The glass door gives a good overview of the content, while fan assisted cooling ensures an even temperature in the cabinet. The cooler comes with an evaporator cover to prevent damaged medicine. Available in two sizes.

MEDICAL I 211

COLD ROOMS

Cooler Rooms - Freezer Rooms

Cold rooms are perfect as a plug-in refrigerated storage solution with quick and easy assemble. The cooling units come completely premounted in a panel and does not require extra expert knowledge. There is no need for cutting when assembling.

The interchangeable modular panels even allow varies positioning of both the panel with the cooling unit and the panel with the door.

Our range of cold rooms have a low energy consumption due to the effective polyurethane insulation in the panels combined with an energy efficient cooling system.

The cold rooms can be used in both restaurants, delis, cafes etc. They are a great way to create optimal and efficient cooling space at a very affordable price. Cold rooms are a perfect and easy accessable way to store foods, dairy products and beverages.

The many different cold room sizes give a good fit in most conditions. Cold rooms are available as both cooler and freezer models. As the panels and the monoblock (cooling unit) are delivered seperately, it is also possible to purchase them seperately. Shelves are optional.

Our coldroom is easy to install a plug-in solution.

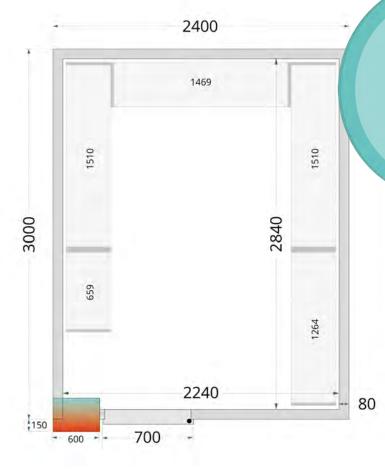

When you need larger capacity for chilled or frozen storage.

COUNTERS

Counter Coolers - Counter Freezers - Saladettes - Sandwich Counters - Pizza Counters - Topping Units

TEFCOLD counters are used in professional kitchens, often in the HORECA sector. They are made of high quality SS304 stainless steel, and come with 1, 2, 3 or 4 sections.

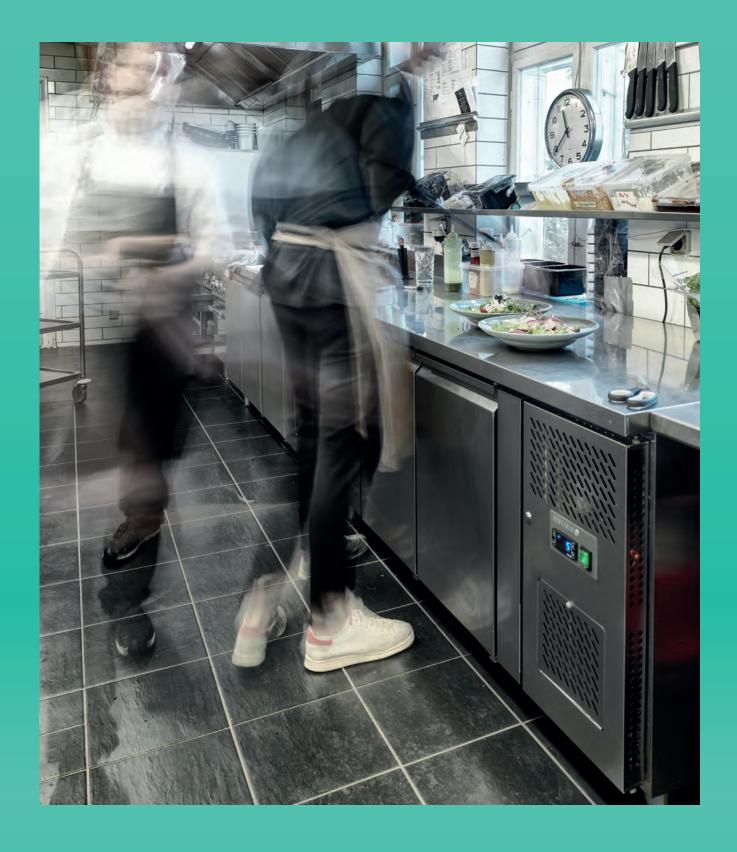

All units fit with the measurements of GN canteens and have optimised airflow to ensure the best possible uniform cooling in any GN canteen.

There is a variety of different sizes and types, ranging from standard Gastronorm units to saladettes with cooling tubs, or pizza counters with vitrine coolers.

TEFCOLD vitrine coolers - also called topping units - are used with pizza counters or separately.

In common with the counters, the vitrine coolers come in high quality SS304 stainless steel and in a range of sizes, from 1200 mm to 2000 mm long. They come either with a steel or glass top, so that toppings can be visible yet protected.

Some counters have drawers instead of doors. Please ask if required.

TEECOLD CK7210

Counter in stainless steel with cooling storage with doors or drawers. Perfect for food preparation and storage in food service industry.

CK Counter Coolers with Splashback

CK7410

Counter Cooler GN1/1

- New design
- Stainless steel
- Ventilated cooling
- Automatic defrost
- Self-closing doors
- Removeable table top with splashback
- · Adjustable legs

Drawers available as seperate kit

Description

The CK range of counter coolers in SS304 stainless steel is made for professional kitchens and therefore has GN1/1 dimensions. The counters are available in several sizes and you can choose between solid doors, glass doors, or drawers. You furthermore have the choice between models with a removable tabletop with or without a splashback. They all have ventilated cooling to ensure an even and steady temperature.

SK6410 Snack Counter Cooler

- New design
- Stainless steel
- Ventilated cooling
- Automatic defrost
- Self-closing doors
- Removeable table top
- · Adjustable legs

Drawers available as seperate kit

Description

The SK range of snack counter coolers is made in SS304 stainless steel. The term snack is used for gastro products, which do not have gastronorm dimensions. The snack counters have a depth of only 600 mm which makes them ideal for kitchens with limited space. Available in several sizes from 2-4 doors and in models with a removable tabletop with or without a splashback. They all have ventilated cooling to ensure an even and steady temperature. Also available in a freezer option (SK-BT range)

- Euronorm cupboard
- Ventilated cooling
- Automatic defrost
- · Self-closing doors
- Removeable table top
- · Adjustable legs

Easy access to clean dust filter

Drawers available as seperate kit

Description

The BK range of bakery coolers is made specifically for bakeries and therefore have euronorm dimensions with guides for bakery trays. The range includes counters as well as upright coolers. It is made from high quality catering grade SS304 stainless steel. A ventilated cooling system ensures that the ingredients stay fresh, and the temperature is easily controlled by a digital thermostat.

Pizza Counter GN1/1

- Stainless steel
- · Granite table top
- Cooling well for GN1/6 pans
- Automatic defrost
- Doors
- Adjustable feet
- Fan assisted cooling

Drawers as option

Description

The PT range of pizza tables is made in SS304 stainless steel. It has a granite tabletop, which is ideal for creating pizzas, as the granite stays cool and makes it harder for the dough to stick to the tabletop. It is available in several sizes with 2- or 3 doors. It is also possible to get it customized with drawers. Comes with or without a topping unit for GN pans topping units can also be retrofitted.

Stainless steel lid for protection of food

Description

The VK-S/S range of vitrine coolers is a great addition to gastro counters, as it enables you to have everything you need for food preparation within reach. It accepts GN1/3, GN1/6, and GN1/2 pans (not included). The cooler is made in SS304 stainless steel with a steel lid to protect the food. Ideal for pizza places, fast food restaurants, and sandwich shops.

COOLING WELLS

Gastronorm Cooling Wells

We all know the feeling of a breathtaking buffet with a huge variety of food presented and nice looking buffets need perfect cooling.

With a TEFCOLD cooling well, you get a highquality product and a secure way of showcasing the lavish food items.

The wells are robust and discrete looking, with a classical gastro or HoReCa design. Easy to clean and easy to use.

They are designed for standard gastronorm sizes, so your pans fit perfectly into the cooling well

Made of high quality SS304 stainless steel, with electronic thermostats and ventilated or static cooling, these products are ideal for integrating into a buffet in restaurants and professional kitchens.

TEECOLD CW3/V

Cooling well in stainless steel with ventilated cooling.

Perfect build-in units that can be used for buffet designed for GN 1/1 pans.

GASTRO Ventilated Cooling Wells

UPRIGHT CABINETS

Stainless Steel Upright Freezers - Stainless Steel Upright Coolers

TEFCOLD gastro upright cabinets are mainly used for storage in professional kitchens. Most models are available in a cooler and freezer option.

The majority of our gastro cabinets come in high quality SS304 stainless steel, approved for industrial kitchens.

In addition, we have also introduced the UR/UF range, which is available in a stainless steel or white finish.

If you need to move the cabinets on a regular basis, e.g. for the daily cleaning, we would recommend our models with strong castors/wheels.

TEFCOLD RK710

Gastro upright cooler in stainless steel. When you need easy access to cold storage.

UNDERCOUNTERS

Stainless Steel Flex Cooling Drawer Cabinet - Stainless Steel Undercounters

TEFCOLD undercounter range features models in high quality SS304 stainless steel with drawers and/or cabinets for installation under a counter in restaurants, caf s or bistros.

They are designed to GN dimensions with solid wire shelves and self-closing doors, or fitted with drawers. Cooling range goes from -2 to +8 degrees, making them ideal for a wide range of uses.

Our UD range offers a flexible solution, where you can switch from cooling to freezing at the touch of a button. This is perfect when space is limited.

Temperature range can be set from -21 to -18 degrees, or +1 to +4 degrees. The four different products in the range can have one or two drawers, and come in two different widths.

They are all dimensioned for GN canteens up to 150 mm deep.

Please note that the drawers should not be used without gastronorm pans and pans are accessory.

The top plate is designed to be able to withstand heavy appliances, such as deep fryers, ovens and the like.

With GN1/1 dimensioned drawers for optimal service operations.

G-LINE

G-Line Counters - G-Line Pizza Counters - G-Line Saladettes - G-Line Cabinets

G-Line by TEFCOLD is our budget version of the popular Gastro range, now featuring updated design. G-Line products are made of the harder grade SS201 steel - making them more economic than cabinets in SS304 steel.

G-line is a limited range, but covers all our bestselling product types for the HORECA sector upright cabinets, cooling counters, cooling and freezer cabinets, pizza counters etc. All G-Line products are designed to store packaged products. And even though we use SS201 steel for economy, no compromise has been made in terms of cooling capacity and quality.

All the units are dimensioned for GN canteens.

G-Line Pizza Tables & Saladettes

GSS435

Saladette Counter GN1/1

- Great value-for-money range
- Stainless steel cabinet
- Adjustable shelves
- Suitable for GN pans (not included)
- Automatic defrost
- · Adjustable feet
- Fan assisted cooling
- Self-closing doors

Stainless steel lid for protection of food

Description

The G-line saladette counters are perfect for busy kitchen environments with 1/1 gastronorm dimensioned cupboards and adjustable shelves. They offer great value for money.

The saladette well accepts GN-pans in sizes 1/6, 1/3, and 1/9.

DID YOU KNOW?

It is our mission to provide our customers an excellent service and make their life easy - help them sell more and make more money.

G-Line Upright Cabinets

GUC140 Upright Cooler GN2/1

- Stainless steel cabinet
- Ventilated cooling
- Digital controller and temperature display
- Lock
- Self-closing doors
- Adjustable shelves GN2/1
- · Strong wheels
- Great value-for-money range

Ventilated cooling

Description

The G-line upright cooler is designed for busy kitchen environments. It has strong wheels for flexibility and a stainless steel exterior for high durability. It has adjustable shelving and accepts GN2/1 gastronorm pans. A great value-formoney product.

ICE MAKERS

Air Cooled Ice Makers

Our range of ice makers uses a spray system to produce crystal clear, slow melting ice cubes with a thimble shape.

We have chosen to introduce these specific ice makers, because of their high quality and the fact that they are easy to install, use, and clean. Futhermore, the units have a very low waterand energy consumption.

The units are ideal for use in cafes, restaurants, pubs, bars, fast-food venues, and other hospitality establishments that require gourmet ice cubes for soft drinks, cocktails, or food preparation.

TEECOLD TC57

Low energy air-cooled ice makers.

When you need crystal clear ice cubes for beverages or food preparation.

ICE MAKERS I 297

Ice cube dimensions

TC85

Ice Maker

- Cubed ice approx. 31x35x31mm (18 g)
- Production Capacity 85 kg/24 h
- Storage Capacity 40 kg
- Low energy air-cooled system
- Spray system produces individual clear ice cubes
- Self-contained ice machine with storage
- Ag+ easy to clean surfaces in the storage bin
- High quality SS304 stainless steel
- 4 Legs and 4 adjustable feet included
- Scoop for ice cubes included
- Fully automatic

TC26

Ice Maker

- Cubed ice approx. 31x35x31mm (18 g)
- Production Capacity 26 kg/24 h
- Storage Capacity 8 kg
- Low energy air-cooled system
- Spray system produces individual clear ice cubes
- Self-contained ice machine with storage
- Ag+ easy to clean surfaces in the storage bin
- High quality SS304 stainless steel
- 4 Legs and 4 adjustable feet included
- Scoop for ice cubes included
- Fully automatic

TC37

ICE MAKERS I 299

BRANDING

We take customization to the next level in our in-house branding facilities. Our experts can help transform your coolers and freezers into tailormade promotors of your brand.

Branding is an excellent way of attracting more attention, regardless of whether you are an artisan producer or a big multinational company. We are happy to help with branding of one product or many, big or small. If you are interested, please contact our sales staff to hear more about the different options.

STEP 1: Help and guidance

Take full advantage of our experience. We are happy to provide advice, so we can find the most effective way to brand your new coolers and freezers both in terms of cost and impact for your customers.

STEP 2: Artwork preparation

Send us your creative artwork and we will prepare it for printing. If you need help with the design, let us know.

STEP 3: Printing and application

Leave the rest up to our skilled branding team. Your design will go through our state-of-the-art printer and be expertly applied to your cabinets. Ready to start wowing your customers.

Branding possibilities

- Sides
- Canopy
- Door/glass
- Frame
- Shelf fronts

LIVING UP TO EU REGULATIONS

It can be difficult to stay on top of all EU regulations and classifications in the cooling industry. You could fill up one ring binder after the next if you printed them all – and more are coming. The good news is that you don't have to know all the details. That is our job.

We can assure you that we use EU labels and register in the EPREL EU database as required, we follow the standards on eco-friendly refrigerants, and we test the quality of the cabinets. Just to mention a few very important topics. It is our mission to make the life of our customers easier.

EU energy efficiency labels

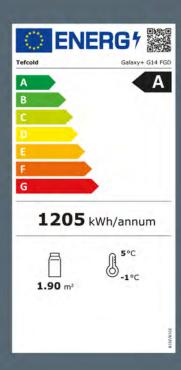

Most, but not all, commercial refrigeration products are required to have an EU energy efficiency label. The new scale that was introduced in March 2021 goes from A-G, where A is the most energy efficient.

It is not possible to compare energy labels across product groups. There are different criteria behind the labels according to different product groups. This is what makes it all so complicated.

However, if you are looking for an energy efficient cabinet, a good rule of thumb is to look at the annual energy consumption of the unit as well, rather than the EU energy rating alone. This will also give you an indication of the running costs of the cabinet.

All products that have an EU energy efficiency label, you can check in the EPREL database. You can also show this to your customers, as the EU energy efficiency label inside the cabinet has a QR code that shows them directly into the database, where they can see classification, energy consumption, EEI etc.

EU energy efficiency labels

Eco-friendly refrigerants

At TEFCOLD, we only use eco-friendly refrigerants and have been doing so for some time now. During the last couple of years, the EU has banned the use of numerous refrigerants, leaving only a handful of natural refrigerants with a GWP (Global Warming Potential) below 150, approved for the European market.

But the standards keep changing of course, to keep up with the developments in the industry. And you can be assured that we are keeping up as well.

Test, test, and more testing

In order for requiring an EU energy efficiency label, every single new model must undergo strict testing following international EN ISO standards. We test parameters such as cooling performance, pull down speed, energy consumption, and sound level.

Our products are tested at the factories, or in some cases by third parties as well as in our own testing facilities in Denmark. You can therefore rest assured that our products live up to all EU regulations.

LOOK FOR THESE SYMBOLS

To make it easier for you to find the products that meet your requirements, we have added symbols as a guideline. We have specified their meaning below.

New product

The product has been launched recently.

Suitable for Dairy Products

The product has a temperature range that is suitable for storing dairy products.

Suitable for Fresh Fish

The product has a temperature range that is suitable for storing fresh fish.

Suitable for Fresh Meat

The product has a temperature range that is suitable for storing fresh meat.

Cooler option available

The freezer with this symbol is also available in a similar cooler model.

Freezer option available

The cooler with this symbol is also available in a similar freezer model.

Switchable Cooler / Freezer

The product can be used as a cooler or freezer. You can switch between the two options.

Dual Temperature

The product has two temperature zones.

Alarm

The product has an alarm installed to let you know that the temperature is too high.

Lock

The product has a lock and keys.

Site Survey

Please make sure site has been correctly surveyed both for access (door size/steps etc.), that the area for the unit is big enough, and that there is a suitable electrical supply.

Special Installation

In addition to site survey, the product requires special installation such as assembly.

Left Hinged Door

The product has a left-hinged door as standard.

Right Hinged Door

The product has a right-hinged door as standard.

Pharmacy Medical Cabinet

The product is suitable for storing pharmaceuticals.
